

International Building · Taiwan Tech  
March 8, 2023 | Taipei, Taiwan

## Introduction

The 9th international forum on Advanced Technologies (IFAT 2023) will be held at Taiwan Tech on March 8th. The objective of the Forum is to focus on the issues of the researches collaborated by National Taiwan University of Science and Technology (NTUST), Tokushima University (TU) and Kyushu Institute of Technology (Kyutech). The forum is expected to attract a wide range of academics, scientists, researchers, students, and industrialists. The forum will give opportunities to exchange experiences and researches on a variety of advanced technologies. Through the presentations coupled with critical discussions and social interactions, it will give a platform for promoting future collaborations and industrial applications.

## Topics Of Interest

- ✦ Nanotechnology and Advanced Materials
- ✦ Advanced Measurements and Plasma Technologies
- ✦ Advances in Processing and Manufacture of Electronic and Electrical Components
- ✦ Optical Engineering and Imaging Sensing Techniques
- ✦ Deteriorations and Retrofitting Techniques for Civil Engineering Structures
- ✦ Emerging Fields and New Technologies
- ✦ Industrial Management and Design

## Participation Opportunities

- ✦ **Keynote Sessions:** Keynote sessions will be held on March 8, 2023, in which leading experts from academia, industry, and research institutes will share their insights on technology developments and future trends.
- ✦ **Technical Paper Sessions:** Both oral and poster technical papers will be presented to share the updated research results on March 8, 2023.

## Contact

Ms. Yu Pei Chang  
Office of Research and Development
